EXPERIENCE

Thoughtworks, Hyderabad — *Frontend Developer Intern — Remote + On-site*

June 2024 - November 2024

- Collaborated with a team of developers to build scalable, responsive web applications.
- Wrote modular and reusable code with attention to performance and maintainability.
- Gained hands-on experience with HTML, CSS, Javascript and React for building front-end development.

EDUCATION

Government Polytechnic, Proddatur — *Diploma*

August 2022 - May 2025

PROJECTS

ThoughtNest — *a blogging engine*

- Built using React and Vite for lightning-fast performance.
- Users can create, edit, and delete blog posts with markdown support.
- Also user can follow and unfollow other users in real-time

BookNGo — *a travel booking engine*

- Users can browse and book travel packages.
- Designed a clean UI with responsive layouts using CSS.
- Backend developed using Express.js; data managed with MongoDB.

Magadha Bank — *a banking engine*

- Simulates essential banking operations like deposits, transfers, and account creation.
- React on the frontend; Express.js + MySQL on the backend.
- Emphasized user authentication and data handling.

SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React, Vite
